

CSE Workshop

Children under the age of 16 cannot legally consent to sexual activity. Sexual intercourse with children under the age of 13 is statutory rape. Whilst a child aged 16-17 can consent to “healthy & safe” sexual activity, a child of this age cannot consent to being sexual exploited.

CSE is a form of child abuse involving children receiving something, such as accommodation, drugs, gifts or affection, as a result of them performing sexual activities, or having others perform sexual activities on them. **CSE is a hidden crime**; children often trust their abuser and don't understand they are being abused.

This workshop aims to raise awareness around CSE and provide information, tools and resources that can be taken back to your team to further raise awareness. The workshop explores the following key issues;

- What is consent?
- It happens to boys too
- Healthy relationships are not directed by porn.
